# FIT RIGHT NORTHWEST **08** HOLIDAY GIFT GUIDE

So, it's December, and if you're like me, you haven't started your Christmas shopping. Yes, just think of all that you have to look forward to in the coming weeks: the noise and chaos of shopping malls, the crowded parking garages, the frustration of searching for 'the perfect gift' for 'that special someone'. Or, you could skip all of that and come to Fit Right, where we've got something for everyone on your list. And in the spirit of good will, good tidings, and all that Christmas cheer stuff, our buyers have put together a collection of all of their favorite items that will be in the store this season. So whether you're wondering what the best shoe is, looking for the warmest hats and gloves, or searching for that perfect base-layer or jacket, we've got you covered.

## 1. ANYTHING BREATH THERMO

**BT Loose Fit Pant**  
\$60.00

**BT Stretch Crew**  
\$60.00

**BT Running Crew**  
\$55.00

**BT Tight**  
\$75.00

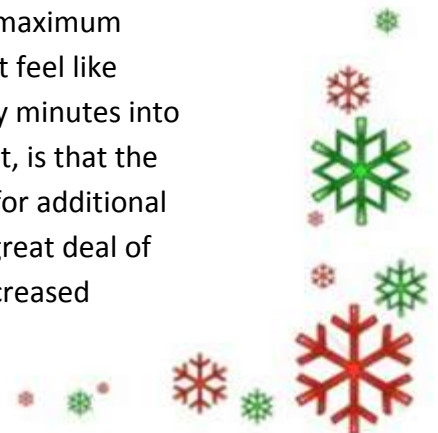

Just because we can't change the weather doesn't mean we can't outsmart it. A favorite among both employees and customers, Breath Thermo is a special tech fabric from Mizuno that actually converts moisture to heat, helping to insulate your body during cold winter workouts, as well as protect muscles from the elements. How does it work, you ask? Well, we're not exactly sure, but it's some sort of chemical exchange; understandably, the details are kept under wraps. But if you're skeptical, ask an employee to show you a demo of the fabric. My guess is that you'll be as impressed by it as we are.

## 2. BROOKS ELEMENT JACKET--\$100.00

The great thing about the Element Jacket is that while the fabric is waterproof and windproof, the seams aren't taped, so you get maximum protection, but you won't feel like you're suffocating twenty minutes into your workout. Also great, is that the jacket is vented in back, for additional breathability, and has a great deal of reflective material for increased visibility.

### 3. WUNDERLAND ENSEMBLE

**Wunderland Pant**  
\$55.00

It's easy to love winter in the Northwest when you're wearing a cute, comfortable outfit like this one from Adidas. Constructed using Adidas' trademark Climalite fabric, both the pant and jacket are a soft, suede tricot. Pair these two items with the Adidas Chalet beanie (not pictured), and you've got yourself a first-rate present. In fact, since the whole set is reversible, it's more like two presents in one!

### 4. HANDFUL BRA--\$40.00

Finally, a sports bra that looks great, feels comfortable, and provides enough support. Oregon Native Jennifer Ferguson created the Handful bra to be both flattering in fit, as well as versatile in function. Constructed with removable pads, the Handful bra can be worn for your long run or walk, to the gym, or even with jeans and a t-shirt.

## 5. CRAFT BASELAYERS

**proZERO S/S**  
\$50.00

**proZERO Extreme L/S**  
\$70.00

Put one on, and you won't want to take it off. The fabric is light, breathable, and extremely efficient. An internal air channel will allow body heat to dissipate through the fabric before it even has the chance to turn to sweat. Designed by a Nordic skier, any of these base-layers will work to regulate your body temperature whether you are ascending or descending, helping to keep your body at an optimal performance level. All pieces are also constructed using a circular knitting process, which results in a seamless, non-restrictive fit.

## 6. SUGOI HELIUM JACKET--\$100.00

This is the perfect jacket for the person who doesn't like to wear jackets. It's water resistant, wind resistant, and best of all, it packs up into an internal pocket that weighs less than 100 grams (other things that weigh 100 grams: 100 paper clips, a stack of 100 dollar bills...you get the idea, right??). Also, whereas most jackets are sprayed with a water-resistant coating, the Helium fabric is actually soaked in a bath, which means that that it will perform better, as well as last longer.

## 7. NIGHTLIFE GEAR

**Nightlife Jacket**  
\$90.00

**Nightlife Vest**  
\$80.00

Whether you're running in the morning or the evening, chances are, at some point this winter, you'll be running in the dark. But with the proper gear from Brooks' Nightlife collection, you'll be visible, as well as comfortable and dry, given that both the jacket and vest are water and wind resistant.

## 8. SAUCONY HEADWIND JACKET--\$65.00

For the shopper on a budget, take a look at the Headwind Jacket from Saucony. It's light, it's water-resistant, and it's cheap! At only \$65.00 dollars, it's by far our best price-point jacket this season—not that anyone has to know, of course. Half-back mesh will help increase breathability, and a drop-tail back with an elastic draw-cord will help keep the jacket in place, and the cold at bay.
